The Linda S. Mlynarek Community Garden

at Botsford Commons

The Mlynarek garden provides an area of beauty and tranquillity for those who live, work and visit the Botsford Commons Community. Botsford Commons is set amid 30 wooded acres along the Rouge River. The buildings include a historic early 1920s Albert Kahn design. The campus houses four distinct residential alternatives, including condominium homes, independent living apartments, an assisted living center and the Botsford Continuing Health Center.

Linda Mlynarek was President of the Botsford Continuing Care Corporation and Administrator of the Botsford Continuing Health Center when she passed away suddenly in November 1998. The Linda S. Mlynarek Community Garden commemorates the memory of this dedicated and compassionate person. The garden is surrounded with the buildings where Linda spent 25 years of her life developing a caring, supportive environment of health care services for older adults.

The enclosed garden is located on the north side of the complex adjacent to the Assisted Living Center dining room. A hedge border outlines the garden with room for over 2,500 multicolored trees, shrubs, and flowers. Tribute and memorial engraved bricks provide walkways and seating areas with benches for viewing and enjoying the garden. A special friendship garden has been established that highlights perennials for all seasons.
